Tavva Mohana Venkata Kavya

PERSONAL INFORMATION:

+91-7569678316

mohanakavya09@gmail.com

Hyderabad

LinkedIn : www.linkedin.com/in/mohanakavya2k7

CAREER OBJECTIVE:

Third-year Electronics and Communication Engineering student with an interest in Digital Design, VLSI, and Semiconductor Systems. Seeking a VLSI internship to apply knowledge of digital electronics, HDL design, and circuit analysis while gaining industry experience..

EDUCATION:

Bhoj Reddy Engineering College For Women ,Hyderabad

CGPA:8.2

Vishra Junior Kalasala College

Percentage:97.7

Naagarjuna Montessori IIT Concept School

CGPA:10.0

TECHNICAL SKILLS:

- Verilog HDL (Beginner)
- Digital Logic Design
- Analog & Digital Electronics
- Circuit Analysis
- MATLAB
- C Programming

ACADEMIC PROJECTS:

- **4-Bit Synchronous Counter using Verilog HDL**
- Designed and simulated a 4-bit synchronous counter using Verilog HDL and verified functionality through testbench simulation and waveform analysis.
- **Vehicle-to-Vehicle Collision Warning System using MATLAB**
- Simulated and analyzed a vehicle-to-vehicle collision warning system under different traffic scenarios using MATLAB.
- **Noise Reduction Filter Design using MATLAB**
  Designed a digital noise reduction filter in MATLAB to improve signal quality and reduce unwanted noise.
- **Electronic Piano using 555 Timer IC**
  Designed and implemented a multi-tone electronic piano using 555 timer ICs
- **Automated Toll Gate Control System**
  Developed an automated toll gate prototype using sensors and control logic

CERTIFICATIONS:

- IBM SkillsBuild – Customer Engagement:Problem Solving and Process Controls
- IBM SkillsBuild – Artificial Intelligence Fundamentals

STRENGTHS:

- Leadership & Team Coordination
- Communication Skills
- Problem Solving
- Adaptability
- Quick Learning Ability

HOBBIES:

- Reading about emerging technologies
- Researching semiconductor and electronics trends
- Outdoor sports

ACHIEVEMENTS:

- Received various prizes for essay writings and elocutions
- Elected Class Representative for a cohort of 60+ students, serving as the primary liaison between students and faculty and coordinating academic activities.
- Actively participated in technical workshops, poster presentations, and hands-on electronics projects
